DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art shows a side pivot hinge for mounting to a side edge portion of a glass structure comprising a joint body with two spaced apart holding walls, a joint seat, a joint housing, and a supporting shaft (Garrett et al, Cheng '561, Kao, and Cheng '055). The prior art also shows an angular adjustment locker, the supporting shaft having two end portions rotatably received the joint housing, and the joint housing has two locking slots coaxially aligned with the joint sleeve (Garrett et al). The two end portions of the supporting shaft are respectively locked up at the two locking slots via the angular adjustment locker in the prior art. The prior art fails to disclose, in combination with all of the elements above, the angular adjustment locker to have two adjustment slits longitudinally formed on the joint housing to respectively communicate with the locking slots and two locking holes transversely formed on an outer side of the joint housing through the adjustment slits, where a locking member is rotatably engaged with a locking hole to adjustable reduce a width of the adjustment slit so as to lock up the end portion of the supporting shaft.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J. Kyle whose telephone number is 571-272-7057. The examiner can normally be reached on Monday - Friday, 8:30 am - 5:00 pm.
